

ROBOTS: REALISM AND IMAGINARIES! WHERE IS THE VOICE OF THE ACTUAL USERS?

Delivering concrete policy recommendations for ethical robotics at the European Parliament.

Robots are coming out of the industrial cage into people's everyday lives, but people working with, or being affected by, robots are not heard in decisions concerning robot technology.

The H-2020 funded REELER project will share ethnographic research knowledge of how robots affect our daily lives, work tasks, our ideas about robots, and why it is important to listen to people outside the inner circle of robotics.

This meeting delivers concrete policy recommendations for future robotics development and implementation.

Please join us for a morning meeting at the European Parliament, Member's Salon, **Tuesday December 10, at 8.00-10.00 am.**

AGENDA

08.00-08.10: **Welcome** by MEP Christel Schaldemose

08.10-08.30: **Introduction to REELER and Collaboration in the inner circle of robotics**
by Project Coordinator, Prof. Cathrine Hasse and R&D Director MariaBulgheroni

08.30-08.40: **Unforeseen impact of robots on nurses' workload**
by Juan Jose Fernandez, Policy Advisor at European Federation of Nurses Associations

08.40-08.50: **Citizen involvement and Innovation network**
by Prof. Kathleen Richardson and Prof. Andreas Pyka

08.50-09.50: **Policy recommendations for future robot developments**
Presentation of two core policy recommendations and reflection upon these with the panel and guests
Panel: Juan Jose Fernandez, Andreas Pyka, Kathleen Richardson, Maria Bulgheroni, and Cathrine Hasse. Moderator: Stine Trentemøller

09.50-10.00: **Summing up and thank you**
by Prof. Cathrine Hasse

TIME AND PLACE

- Tuesday 10th of December, 2019, at 8.00-10.00
